

**AUTHORIZATION FOR AUTOMATIC CREDIT CARD
PAYMENT DEDUCTION FROM ANOTHER PFCU ACCOUNT**

I hereby authorize Pentagon Federal Credit Union (PFCU) to charge my PFCU share account number designated below each month for payment to my PFCU credit card account number _____, provided there are sufficient funds available to make payment at the time of presentment. I understand that payments will be credited to my credit card account on the billing cycle closing date and will be deducted from my PFCU share account within five days after the billing cycle closing date (the last day of the billing period) of my credit card account cited above. If sufficient funds are not available to make the entire payment designated below, the payments to my credit card account will be reversed and I will be held liable for any finance charges or late charges that may accrue, unless I make payment within the grace period as set forth in my Cardholder Agreement with PFCU. Automatic deduction is to be made from one of the following accounts:

Regular Share Account No. _____-01-_____

PenCheck Account No. _____-02-_____

Money Market Share Account No. _____-03-_____

I elect to have my payments deducted from my designated account in the following manner (check one box below). Payments will be applied to my credit card account as of the billing cycle closing date. Any additional payment will not advance my payment due date beyond the next billing cycle.

Minimum Payment Due (This is defined in my Cardholder Agreement and Disclosure Statement.)

An automatic payment in the amount of the unpaid minimum payment due, excluding any overlimit amounts, on the cycle closing date will be applied to my credit card account. (Overlimit amounts should be paid separately.) The payment will be deducted from my designated account within five days after the billing cycle closing date.

Full Payment Due

An automatic payment in an amount required to pay off the last billed balance minus any cycle-to-date credits or payments will be applied to my credit card account. The payment will be deducted from my designated account within five days after the billing cycle closing date.

Designated Recurring Payment of \$ _____

An automatic payment of the above amount will be deducted from my designated account within five days after the billing cycle closing date. In the event the minimum payment due exceeds the above amount, the minimum payment due will be deducted. Should the last statement balance be less than the above amount, only the balance due will be deducted.

This agreement may be cancelled by either party upon written notice.

By electing the automatic credit card account payment deduction, I am voluntarily agreeing to make my account payments in accordance with these instructions. My automatic credit card account payment deduction will continue in this manner until I send PFCU written instructions to terminate it.
